

## CONTRACTOR QUALIFICATIONS QUESTIONNAIRE

The Mid-Missouri Clean Energy Development Board (the “Board”) requires that all work done on projects financed by the Board must be by a “qualified contractor”. For the Board’s purposes, a “qualified contractor” includes, among others, contractors, subcontractors, vendors, and energy auditors. While the Board does not endorse any firm, company or individual, it is concerned that competent, qualified contractors complete, as designed and at the approved price, each and every Board approved project.

As a “qualified contractor” you will be expected to (a) assist in communicating information about the Board’s PACE program, (b) offer feedback to the Board’s program administrator on potential improvements to the program, and (c) provide high quality work at a competitive price.

Contractors desiring to be eligible for work within the program must complete this questionnaire and file it with the District Administrator prior to performing any work. Please print a copy of this document, complete and sign it, and mail to the District Administrator:
